

Victim impact statement

hello; as many of you know me as [REDACTED] @ 25 years old. Theodore Sparron can see passed that & sees a 14 year old child. I say that because hell forever hold on to that part of me, that part of my childhood. from 14 to 17. the endless amounts of school day I missed to accomidate his needs & desires. The amounts of punishment I recieved for in their words "Being mean" the long days and even longer nights, ~~and~~ pictures being taken of me, him randomly showing up @ the house after being told hes not allowed. he believed he could pay for these things But money doesn't buy life long Trama, ~~trauma~~, hopeless relationships, uneasy feelings & weariness of people in my ~~life~~. everyday life. low self esteem & also the memories I cant shake.

@ 25 years old I have worked through most of my PTSD and have found medications to help Conquer the thoughts in my head, the flashbacks. @ 25 years old I have found a partner in my life that understands my past + has been carefully learned to Cope w/ it.

@ 25 I have finally forgave my family for I believed they knew. @ 25 years old Theodore John Samoi I am letting you go of everything you've Chained + locked in my Brain so I can Continue to heal. + can move on to the next chapter of my life. So my children can have ~~a~~ the healthy, happy mom they deserve.
